Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/568,096	Applicant(s) LEE, ROBERT	
	Examiner Thien T. Mai	Art Unit 2887	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Objections

Content of Specification

Applicant is reminded of the proper content of an abstract of the disclosure.

- (k) Abstract of the Disclosure: See MPEP § 608.01(f). A brief narrative of the disclosure as a whole in a single paragraph of 150 words or less commencing on a separate sheet following the claims. In an international application which has entered the national stage (37 CFR 1.491(b)), the applicant need not submit an abstract commencing on a separate sheet if an abstract was published with the international application under PCT Article 21. The abstract that appears on the cover page of the pamphlet published by the International Bureau (IB) of the World Intellectual Property Organization (WIPO) is the abstract that will be used by the USPTO. See MPEP § 1893.03(e).

The current abstract is objected for having more than 150 words.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim(s) 1-19 is/are rejected under 35 U.S.C. 103(a) as being unpatentable over Eisele (US 5,159,182) in view of Burkart (US 5,584,043) and Raviv (US 4,774,618).

Eisele discloses a floppy-disk shaped device having at least components including readhead/transducer 6, 16, 17, 13; disk 15; keyboard 21; display 21; IC chip 2; a circuit including memory 9 wired to other components (Fig. 1-8). The components communicate to each other to exchange data with different external devices and hosts.

Eisele lacks a smart chip port to receive a portion of a card.

Burkart discloses such port is known in the art as illustrated in Figs. 3a-3c, 4a-4b, 5a-5b.

Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate the teachings of Burkart in order to allow smaller chip card to be read using the floppy drive.

Eisele lacks a slot for swiping magnetic strip card.

Raviv discloses a floppy-disk shaped device that includes a slot 54 for inserting/swiping a magnetic strip card to be read by a magnetic head 55 (Fig. 6-7)

Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate the teachings of Raviv in order to allow magnetic strip card to be read by the floppy device.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Eisele (5471038), Eisele (6,189,055), Mital (5664228), Le Roux (5375037), Goodwin (6179209).
